- WHY "Regeneration" is needed?

Spatial Dimension (Supply-side) - 3 Predominant Factors: Availability, Accessibility, Affordability)

	Availability	Accessibility (Connectivity)	Affordability
Quality	SoilScaleLand-UseRegulations	 Market Production Supporting facilities incl. Residence + Leisure Research + Development 	• Cost (vs. Quality) • Ownership & rent
Efficiency Effective- ness	Timing & Measures of Public Interventions	Infrastructure Investment/Improvement	Funding Ways & Means.

二、HOW

- 原則:Governance & Funding (Public-Private-Partnership)
- 工業局角色由工業發展→區域產業再發展(都市區域 City-Region/或都會區)=長期發展政策
- 現有工業區:分為都市與都市區域兩種類別
 - · 前者納入都市整體發展(產業、交通、都更及景觀等)
 - ·後者由工業局配合交通、勞委會等與其他中央有關經建部門→ 區域產業再發展

區域產業再發展機構"拉拔(Pull)"之籌碼◆

- 土地儲備機制:工業區管理機關成為「中价商」 ——
- 各區域內與區域間之工業區整體發展→整合「競合效應」;並且避免「單一產業聚落」。
